

Area 8 Loadshedding Schedule

FISH HOEK

Outage Tips

- Make sure you switch off and unplug all electronic devices and appliances before the power is due to go off as it may come back on with a spike in the voltage which can damage electronic devices such as computers, televisions etc.
- Purchase surge protector plugs for your electronic devices.
- Make sure your alarm batteries are working as they should. Constant draining and recharging reduces their lifespan.
- Join your Neighbourhood Watch and help them with patrols during loadshedding. Criminals love the dark.
